INDEX

ABALONE, reproductive cycle of, 183.
Accumulation of radiophosphorus in Tetrahymena, 298.
Acmaea, osmotic behavior of, 417.
Activity of Cardisoma, in relation to oxygen-hemocyanin, 252.
Actyostelium, aggregation territories in, 13.
Aequipecten, polychaete pest of, 149.
Affinity of tissues in Amaroecium, 396.
Agglutination of fertilizin, inhibition of by Fucus extracts, 194.
Aggregation territories in cellular slime molds, 13.
Alga extracts, inhibition of fertilizin by, 194.
Alkaline phosphatase in Lineus, 63.
Amaroecium, tissue affinity in, 396.
AMDUR, B. H. *See* M. S. GORDON, 52.
Amoebocytes, role of in visceral regeneration of sea-stars, 321.
Amphibian egg and embryo, phosphatase localization in, 232.
Amphibian yolk platelet, organization and composition of, 263, 281.
Anatomy of Taeniocotyle, 137.
Anatomy of Trichotropis, 160.
ANDERSON, J. M. Studies on visceral regeneration in sea-stars. I., 321.
ANSELL, A. D. *See* H. C. DAVIS, 33.
Antifreeze substances in blood of northern fishes, 52.
Antigen studies on frog egg yolk platelets, 281.
Arbacia fertilization inhibition by Fucus extracts, 194.
Arctic fishes, freezing resistance in, 52.
Artemia, genetics of, 25.
Ascidia, biology of, 40.
Aspects of osmoregulation in Hemigrapsus, 208.
Asphyxia, responses of fishes to, 362.
Aspidobothrea, systematics of, 137.
Axial gradients in tunicates, 396.

BACTERIAL density, role of in aggregation territories of slime molds, 13.
Bdelloura, ionic and water balance of, 310.
BECK, S. D. Photoperiodic induction of diapause in an insect, 1.
Benthic indicator species, biology of, 160.
Biology of Trichotropis, 160.
Bivalve ligament mechanics, 369.
Blaberus, responses of neurosecretory cells of to dehydration, 431.
Blood of Cardisoma, oxygen-hemocyanin relations in, 252.
Blood ionic balance in earthworms, 228.
Blood osmotic pressures of crabs, 208.
Body weight changes in x-irradiated mice, 115.
BONNER, J. T., AND M. R. DODD. Aggregation territories in the cellular slime molds, 13.
BOOLOOTIAN, R. A., A. FARMANFARMAIAN AND A. C. GIESE. On the reproductive cycle and breeding habits of two Western species of Haliotis, 183.
BOWEN, S. T. The genetics of Artemia. I., 25.
Bradycardia in fishes, 362.
BRANHAM, J. M., AND C. B. METZ. Inhibition of fertilizin agglutination and fertilization in Arbacia by Fucus extracts, 194.
Breeding habits of abalone, 183.
Breeding season of Ostrea in Maine, 86.
Brine shrimp, genetics of, 25.
BURGESS, P. R. *See* L. H. KLEINHOLZ, 73.

CALICO scallop, polychaete pest of, 149.
California coast area kelp beds, sublittoral ecology of, 95.
Callinectes, retinal pigment hormone in, 73.
Carcinus, retinal pigment hormone in, 73.
Cardiac responses of fishes to asphyxia, 362.
Cardisoma, oxygen-hemocyanin relationships in, 252.
CARLISLE, D. B. *See* L. H. KLEINHOLZ, 73.
Cathepsin C type enzyme in Lineus, 63.
Carbonic anhydrase in Lineus, 63.
Cellular slime molds, aggregation territories in, 13.
Ceratonereis as pest of scallop, 149.
Chemical stimulation of Hydra, 343.
Cobalt, effect of on fertilizability of sand dollar eggs, 391.
Cockroach neurosecretory cells, responses of to dehydration, 431.
Cod, freezing resistance in, 52.
Coelenterate, feeding reaction in, 343.
Coelomic fluid ionic balance in earthworms, 228.
Cold, in relation to osmoregulation of crabs, 208.
Cold, tolerance of northern fishes to, 52.

Colonization and population growth in Ascidia, 40.
Composition of amphibian yolk platelet, 263, 281.
Conjugation in Tetrahymena, effect of on P-32 accumulation, 298.
Corn-borer, photoperiodic induction of diapause in, 1.
Crab, oxygen-hemocyanin relationships in, 252.
Crabs, osmoregulation in, 208.
Crabs, retinal pigment hormone in, 73.
Crustacea, osmoregulation in, 208.
Crustacean, genetics of, 25.
Crustacean, oxygen-hemocyanin relationships in, 252.
Crustacean, swimming plane of, 380.
Crustacean retinal pigment hormone and neurosecretion, 73.
Cycle, reproductive, of Haliotis, 183.
Cypselurus, responses of to asphyxia, 362.

DARKNESS, role of in induction of diapause in insect, 1.
DAVIS, H. C., AND A. D. ANSELL. Survival and growth of larvae of the European oyster, Ostrea, at lowered salinities, 33.
Decapod crustaceans, retinal pigment hormone in, 73.
DEHNEL, P. A. Aspects of osmoregulation in two species of intertidal crabs, 208.
DEHNEL, P. A. *See* E. SEGAL, 417.
Dehydration, responses of cockroach neurosecretory cells to, 431.
Dendraster eggs, extension of fertilizability of, 391.
Desiccation, responses of cockroach neurosecretory cells to, 431.
Desiccation of Acmaea, 417.
Development of frog, phosphatase localization during, 232.
Diapause in insect, photoperiodic induction of, 1.
Dictyostelium, aggregation territories in, 13.
Digestion in Lineus, histochemistry of, 63.
Digestion in Trichotropis, 160.
Distribution of light-adapting hormone of crustaceans, 73.
Distribution of radiophosphorus in Tetrahymena, 298.
DODD, M. R. *See* J. T. BONNER, 13.
Dugesia, ionic and water balance of, 310.

EARTHWORMS, ionic balance in, 228.
Echinoderm fertilizin inhibition by Fucus extracts, 194.
Echinoderm, visceral regeneration in, 321.
Echinoderm eggs, extension of fertilizability of, 391.
Ecology of Ascidia, 40.
Ecology of California coastal waters, 95.
Ecology of Spisula, in relation to ligament mechanics, 369.
Effects of x-irradiation on mouse postnatal growth, 115.
Egg, frog, phosphatase activity in, 232.
Egg fertilizin inhibition by Fucus extracts, 194.
Eggs, sand dollar, extension of fertilizability of, 391.
Eisenia, ionic balance in, 228.
Electron microscopy of frog yolk platelet, 263.
Embryo, frog, phosphatase localization in, 232.
Embryology of Artemia, 25.
Embryos, mouse, sensitivity of to x-irradiation, 115.
Endopeptidase of Lineus, 63.
Environmental asphyxia, responses of fishes to, 362.
Environmental conditions, role of in aggregation territories of slime molds, 13.
Enzyme activity in frog egg and embryos, 232.
Enzymes, digestive, of Lineus, 63.
Eptatretus, responses of to asphyxia, 362.
European corn-borer, photoperiodic induction of diapause in, 1.
European oyster, gametogenesis and spawning in, 86.
European oyster, survival and growth of larvae of, at lowered salinities, 33.
Extension of fertilizability in sand dollar eggs, 391.
Extracts of Fucus, fertilizin inhibition by, 194.
Eye-color factor in Artemia, 25.
Eyestalk hormones of crustaceans, 73.

FARMANFARMAIAN, A. *See* R. A. BOOLOOTIAN, 183.
Feeding reaction of Hydra, 343.
Feeding of Trichotropis, 160.
Fertility of Artemia, effect of food on, 25.
Fertilizability of sand dollar eggs, extension of, 391.
Fertilization inhibition in Arbacia by Fucus extracts, 194.
Fertilizin agglutination inhibition by Fucus extracts, 194.
Fishes, northern, freezing resistance in, 52.
Fishes, responses of to asphyxia, 362.
Flatworm, systematics of, 137.
Flatworms, ionic and water balance of, 310.
Flying fish, responses of to asphyxia, 362.
Food, role of in aggregation territories of slime molds, 13.
Food supply, effect of on viability and fertility of Artemia, 25.
FORREST, H. Lack of dependence of the feeding reaction in Hydra on reduced glutathione, 343.

Freezing resistance in northern fishes, 52.
Frog eggs and embryos, phosphatase localization in, 232.
Frog egg yolk platelets, organization and composition of, 263, 281.
Fucus extracts, inhibition of fertilizin agglutination by, 194.

GSH, reaction of Hydra to, 343.
Gadus, freezing resistance in, 52.
Gametogenesis of Ostrea, 86.
GAREY, W. F. Cardiac responses of fishes in asphyxic environments, 362.
Genetically inbred mice, effects of x-irradiation on postnatal growth of, 115.
Genetics of Artemia, 25.
GIESE, A. C. *See* R. A. BOOLOOTIAN, 183.
Glutathione, effects of on fertilizability of sand dollar eggs, 391.
Glutathione, reaction of Hydra to, 343.
Gonad indices of abalone, 183.
Gonads of Ostrea, 86.
GOODBODY, I. The biology of Ascidia. I., 40.
GORDON, M. S., B. H. AMDUR AND P. F. SCHOLANDER. Freezing resistance in some northern fishes, 52.
GOWEN, J. W. *See* D. J. NASH, 115.
Gradients, axial, in tunicates, 396.
GRANT, D. C. *See* W. R. HUNTER, 369.
Gravity, role of in swimming plane of Mysidium, 380.
GROSS, P. R. *See* D. A. RINGLE, 263, 281.
Growth, postnatal, in mouse, effect of x-irradiation on, 115.
Growth of Ostrea larvae at lowered salinities, 33.
Grunion, responses of to asphyxia, 362.

HAGFISH, responses of to asphyxia, 362.
Haliotis, reproductive cycle of, 183.
Healing in sea-stars, 321.
Heart beats of fishes in asphyxia, 362.
Heat, in relation to osmoregulation of crabs, 208.
Helodrilus, ionic balance in, 228.
Hemigrapsus, osmoregulation in, 208.
Hemocyanin-oxygen relationships in Cardisoma, 252.
Henricia, regeneration of pyloric caeca in, 321.
High temperature, in relation to osmoregulation of crabs, 208.
Histochemistry of digestion in Lineus, 63.
Histology of desiccated Blaberus, 431.
Histology of European oyster, 86.
Histology of regeneration in Henricia, 321.
Homarus, retinal pigment hormone in, 73.
Hormone, crustacean retinal pigment, 73.
HUNTER, W. R., AND D. C. GRANT. Mechanics of the ligament in the bivalve Spisula in relation to mode of life, 369.
Hydra, feeding reaction in, 343.
Hysteresis curves for Spisula ligament, 369.

ILLUMINATION, role of in swimming of Mysidium, 380.
Immunological studies on frog egg yolk platelets, 281.
Inhibition of fertilizin agglutination and fertilization in Arbacia by Fucus extracts, 194.
Insect diapause, photoperiodic induction of, 1.
Intertidal crabs, osmoregulation in, 208.
Intertidal limpet, osmotic behavior of, 417.
Invertebrates of California coast kelp beds, 95.
Ionic balance in earthworms, 228.
Ionic and water balance of planarians, 310.

JANDER, R. The swimming plane of the crustacean Mysidium, 380.
JENNINGS, J. B. A histochemical study of digestion and digestive enzymes in the rhynchocoelan Lineus, 63.

KAMEMOTO, F. I., A. E. SPALDING AND S. M. KEISTER. Ionic balance in blood and coelomic fluid of earthworms, 228.
KEISTER, S. M. *See* F. I. KAMEMOTO, 228.
Kelp beds of California coast, ecology of, 95.
KLEINHOLZ, L. H., P. R. BURGESS, D. B. CARLISLE AND O. PFLUEGER. Neurosecretion and crustacean retinal pigment hormone: distribution of the light-adapting hormone, 73.

LAND crab, oxygen-hemocyanin relationships in, 252.
Larvae of Ostrea, survival and growth of at lowered salinities, 33.
Larvae of Ostrinia, photoperiodic induction of diapause in, 1.
Leucine aminopeptidase in Lineus, 63.
Leuresthes, responses of to asphyxia, 362.
Life-history of Trichotropis, 160.
Ligament mechanics in Spisula, 369.
Light, role of in induction of diapause in insects, 1.
Light, role of in swimming plane of Mysidium, 380.
Light-adapting hormone of crustaceans, distribution of, 73.
Libinia, retinal pigment hormone in, 73.
Limpet, osmotic behavior of, 417.
Lineus, histochemistry of digestion in, 63.
Lipase in Lineus, 63.

Localization and properties of phosphoprotein phosphatase in frog egg and embryos, 232.
LOOSANOFF, V. L. Gametogenesis and spawning of the European oyster, Ostrea, in waters of Maine, 86.
Low temperature, in relation to osmoregulation of crabs, 208.
Low temperature, tolerance of northern fishes to, 52.
Lumbricus, ionic balance in, 228.

MACRASPIS, new name for, 137.
Mactra, ligament mechanics of, 369.
MCLEAN, J. H. Sublittoral ecology of kelp beds of the open coast area near Carmel, California, 95.
Mechanics of ligament in Spisula, 369.
Mesogastropod, biology of, 160.
Metamorphosis of Ostrea larvae at lowered salinity, 33.
METZ, C. B. *See* J. M. BRANHAM, 194.
Microgadus, freezing resistance in, 52.
Micromanipulation of frog egg yolk platelets, 263.
Mode of life, in relation to ligament mechanics in Spisula, 369.
Molds, slime, aggregation territories in, 13.
Mollusc, biology of, 160.
Mollusc, osmotic behavior of, 417.
Mollusc, polychaete pest of, 149.
Mollusc, reproductive cycle of, 183.
Mollusc ligament mechanics, 369.
Morphogenesis in Amaroecium, 396.
Morphology of Taeniocotyle, 137.
Morphology of Trichotropis, 160.
Mortality in population of Ascidia, 40.
Mouse, effect of x-irradiation on postnatal growth in, 115.
Mudskipper, responses of to asphyxia, 362.
Myoxocephalus, freezing resistance in, 52.
Mysidium, swimming plane of, 380.
